Management’s Discussion and Analysis
For the six months ended September 30, 2006

Mesa Uranium Corp.
(formerly “Fintry Enterprises Inc.”)
Management’s Discussion & Analysis
For the six months ended September 30, 2006, as of November 24, 2006

General

This Management’s Discussion and Analysis of Mesa Uranium Corp. (the “Corporation”) has been prepared by management as of November 24, 2006 and should be read in conjunction with the audited annual financial statements and related notes thereto of the Corporation for the year ended March 31, 2006 and the unaudited consolidated financial statement of the Corporation for the six months ended September 30, 2006. No comparative information is presented for September, 2005 as the legal subsidiary, BZU Minerals Ltd. (“BZU”), which is identified as the continuing entity, was not incorporated until October 2005. All amounts are expressed in Canadian Dollars unless otherwise indicated.

Forward-Looking Statements

Certain statements contained in the following Management’s Discussion and Analysis may be deemed forward-looking statements. All statements other than statements of historical facts, including the likelihood of commercial mining and possible future financings are forward-looking statements. Although the Corporation believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include unsuccessful exploration results, changes in commodity prices, changes in the availability of funding for mineral exploration, unanticipated changes in key management personnel and general economic conditions. Mining is an inherently risky business. Accordingly the actual events may differ materially from those projected in the forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made, and readers are advised to consider such forward-looking statements while considering the risks set forth below.

Description of Business

On December 21, 2005, Fintry Enterprises Inc. (“Fintry”), inactive since December 18, 2003, acquired the shares of BZU through an exchange of shares which resulted in a Reverse Takeover (“RTO”) and concurrently changed its name to Mesa Uranium Corp.. Pursuant to the transaction the Corporation issued the following securities to acquire BZU (all numbers post-consolidation): 6,000,000 common shares and 4,000,000 special warrants exercisable to acquire common shares on a one-for-one basis for no additional consideration for a period of 10 years. Of these securities, 6,525,000 are currently subject to escrow restrictions.

The Corporation is engaged in the exploration and development of mineral properties and owns mineral property interests in the Lisbon Valley uranium mining district located in the Colorado Plateau region, southeastern Utah in San Juan County near the border with Colorado. Over 85 million pounds of uranium were produced in the district from 1952 until the early 1990’s from an arcuate belt 16 miles long by ½ mile wide along the southwestern flank of the Lisbon Valley anticline. All of the major ore bodies did not outcrop and were discovered by exploration drilling. The Lisbon Valley district accounted for over 80% of the uranium mined in the state of Utah and had some of the highest uranium grades in the United States ranging from 0.2 to 0.4 percent uranium. The Corporation is working toward reactivating this uranium mining district by exploring for economic deposits and moving them to production by following a strategy of acquiring a dominant land position and systematically drilling high-priority targets. Most of the targets are located on mineralized trends adjacent to or between historic uranium mines in the Lisbon Valley.

Overview of Performance

The Corporation’s working capital as of September 30, 2006 was \$903,415 (March 31, 2006 was \$2,280,311) and was provided by the private placement concurrent with the RTO raising proceeds of \$2,586,737, net of issue costs, and an additional \$37,500 in warrants exercised. During the six month period ended September 30, 2006, the

Corporation used \$171,952 in operating activities and \$1,224,763 in exploration activities in the Lisbon Valley property. The loss for the six months was \$205,403 or \$0.01 per share.

Selected Information

The following table sets forth selected consolidated annual financial information of the Corporation for the last fiscal year, and the six month period ended September 30, 2006. The selected consolidated financial information should be read in conjunction with the Consolidated Financial Statements of the Corporation.

	September 30, 2006	March 31, 2006
	\$	\$
Net loss	205,403	429,622
Net loss per share	0.01	0.05
Total cash and cash equivalents	895,906	2,255,121
Working capital	903,415	2,280,311
Total liabilities	18,137	34,036
Total assets	2,697,756	2,865,788
Shareholders' equity	2,679,619	2,831,752

Results of Operations

For the six months ended September 30, 2006, the Corporation had a net loss of \$205,403 or \$0.01 per share. General administration and exploration expenses totalled \$143,958. Stock-based compensation of \$15,770 was recognized in this period for options granted to employees. The total loss was offset by \$27,267 interest income received from short-term investment. A total of \$1,224,763 was spent in mineral property acquisition, drilling and exploration related activities for this period.

Summary of Quarterly Results

Selected consolidated financial information for the most recently completely quarters are as follows:

	Interest income	Net loss	Net loss per share
	\$	\$	\$
September 30, 2006	10,994	109,744	0.01
June 30, 2006	16,273	95,659	0.01
March 31, 2006	19,294	429,622	0.05
December 31, 2005	-	81,914	0.01

Liquidity and Capital Resources

Concurrently with the completion of the RTO the Corporation completed a concurrent private placement raising gross proceeds of \$2,959,500 by the issuance of 5,919,000 units at \$0.50 per unit. Each unit consists of one common share and one transferable share purchase warrant. Each warrant is exercisable to acquire one common share at a price of \$0.75 per share until December 21, 2007. The warrants were listed for trading on the TSX Venture Exchange as of April 24, 2006. The Corporation also issued 591,900 agent's warrants to Canaccord Capital Corporation exercisable to purchase 591,900 common shares of the Corporation at a price of \$0.75 per share until December 21, 2007 and 250,000 units as a corporate finance fee having the same terms as the above units.

The Corporation's working capital as at September 30, 2006 was \$903,415 (March 31, 2006 - \$2,280,311). During the six months ended September 30, 2006, \$1,224,763 was used in mineral acquisitions and exploration activities in the Lisbon Valley mineral project and \$171,952 was used in operating and administrative expenses. The

expenditures were offset by proceeds of \$37,500 from exercised of 62,500 warrants to purchase common shares at \$0.60 per share.

Off-Balance Sheet Arrangements

The Corporation has no off-balance sheet arrangement.

Transactions with Related Parties

None.

Subsequent Events

Subsequent to September 30, 2006, the Corporation acquired, from the State of Utah, a mineral lease comprising 95 hectares at the wholly owned Lisbon Valley uranium project. The Corporation now controls approximately 7,300 hectares of mining claims and state mineral leases in the Lisbon Valley Mining District in Utah, USA.

Controls and Procedures

The Chief Executive Officer and Chief Financial Officer have instituted a system of disclosure controls for the Corporation to ensure proper and complete disclosure of material information. The limited number of employees within the Corporation facilitates access to real time information about developments in the business for the person responsible for drafting disclosure documents. All documents are circulated to responsible members of management and the board of directors according to the disclosure time-lines contained within the disclosure policy. The disclosure controls conform with the Corporation's Corporate Governance policies.

The Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Corporation's disclosure controls and procedures have concluded that, as of such date, the Corporation's disclosure controls and procedures were effective to ensure that material information relating to the Corporation was made known to them by others within the Corporation during the period.

Critical Accounting Estimates and Risk Factors

Critical accounting estimates used in the preparation of the financial statements include the Corporation's estimated net recoverable value of these mineral properties. The business of mineral exploration and extraction involves a high degree of risk since very few properties that are explored and developed ultimately achieve commercial production. At present, none of the Corporation's properties have a known body of commercial ore.

The Corporation's impairment determination and resulting estimated net recoverable value on its mineral projects are based on estimated underlying mineral resources associated with the properties and future costs that may be required for ultimate realization through mining operations or by sale. The Corporation is in an industry that is exposed to a number of risks and uncertainties, including exploration, development, commodity, operating, ownership, political, funding, currency and environmental risk. While factoring these risks the Corporation has relied on very preliminary resource estimates on its properties, however, these estimates include assumptions that are potentially subject to significant changes that are not yet determinable. Accordingly, there is always the potential for a material change to the presentation in the financial statements relating to the carrying value of the Corporation's mineral properties.

Financial Instruments and Other Instruments

The Corporation has not entered into any specialized financial agreements to minimize its investment, currency or commodity risk. There are no off-balance sheet arrangements. The principal financial instruments affecting the Corporation's financial condition and results of operations is currently its cash and cash equivalents.

Other Requirements

Additional disclosure pertaining to the Corporation's technical report, management information circulars, material change reports, press releases and other information are available on the SEDAR website at www.sedar.com.

On behalf of the Board of Directors,

"Foster Wilson"

Foster Wilson,
President and Chief Executive Officer

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In Canadian Dollars)

For the six months ended September 30, 2006 (Unaudited – Prepared by Management)

1. NATURE OF OPERATIONS AND CONTINUANCE OF BUSINESS

Mesa Uranium Corp. (the “Corporation”), formerly “Fintry Enterprises Inc.” (“Fintry”), is an exploration stage mining company engaged in the identification, acquisition and exploration of uranium mineral properties located in the United States. It is incorporated in British Columbia and its shares commenced trading on Tier 2 of the TSX Venture Exchange under the trading symbol MZU on December 23, 2005.

The Corporation acquired its subsidiary of BZU Minerals Ltd. (“BZU”) through an exchange of shares in December 2005 with a concurrent name change. As the transaction constitutes a reverse takeover, these consolidated financial statements are a continuation of the historical financial statements of BZU since its incorporation in October 2005 as it is identified as the continuing entity.

These consolidated financial statements have been prepared on a going concern basis in accordance with Canadian generally accepted accounting principles. The Corporation’s ability to continue as a going concern is dependent upon the continued support of its shareholders, obtaining additional financing to complete its long-term business objectives and/or generating revenues sufficient to cover its operating costs. These consolidated financial statements do not give affect to any adjustments which would be necessary should the Corporation be unable to continue as a going concern and realize its assets and discharge its liabilities in the normal course of business.

2. BASIS OF PRESENTATION

These financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles for interim financial reporting, and the accounting policies used are consistent with the most recent annual audited financial statements of the Corporation. The comparative figures as at March 31, 2006 are those of BZU pursuant to continuity of interests accounting requirements described in note 1. While these financial statements reflect all normal recurring adjustments which are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and notes required by Canadian generally accepted accounting principles for financial statements. These unaudited consolidated financial statements should be read in conjunction with the Corporation’s annual audited consolidated financial statements for the periods ended March 31, 2006.

3. ACQUISITION OF BZU MINERALS LTD. AND CONCURRENT TRANSACTIONS

In December 2005, Fintry completed a 2:1 share consolidation and issued 2,014,826 common shares to settle debts of \$1,611,861 inclusive of accumulated interest with holders of convertible debentures.

The Corporation then acquired all of the shares in BZU through the issuance of 6,000,000 of its common shares and 4,000,000 special warrants convertible to common shares on a one-for-one basis for no additional consideration for a period of 10 years (the “Securities”). Of these Securities, 8,700,000 are subject to escrow restrictions in accordance with the rules of the TSX Venture Exchange (note 6). No consideration was attributed to the shares issued for the acquisition as the Corporation was inactive at the time and did not have identifiable tangible net assets.

Concurrently it also completed a private placement raising gross proceeds of \$2,959,500 by the issuance of 5,919,000 units. All of these securities were subject to a four-month hold period which expired April 22, 2006.

4. MINERAL PROPERTIES

BZU holds mineral claims and leases in the Lisbon Valley uranium mining district of Utah comprising an area of approximately 16,640 acres (6,735 hectares) of which unpatented United States federal mining claims cover 11,124 acres (4,502 hectares) and Utah State mineral leases cover 5,517 acres (2,233 hectares). The Lisbon Valley uranium mining district is located in the Colorado Plateau region, in southeastern Utah in San Juan County.

For the six months ended September 30, 2006 (Unaudited – Prepared by Management)

4. MINERAL PROPERTIES (continued)

Subsequent to September 30, 2006, the Corporation acquired, from the State of Utah, a mineral lease comprising 95 hectares at the wholly owned Lisbon Valley uranium project. The Corporation now controls approximately 7,300 hectares of mining claims and state mineral leases in the Lisbon Valley Mining District in Utah, USA.

Costs capitalized as of September 30, 2006 consisted of the following:

	March 31, 2006	Additions	September 30, 2006
	\$	\$	\$
Property acquisition costs	447,066	85,980	533,046

Special warrants exercised	500,000	-
Balance, September 30, 2006	18,647,652	2,859,889

On June 2, 2005 the Corporation completed a non-brokered private placement of units for gross proceeds of \$250,000 by the issuance of 625,000 units at \$0.40 per unit. Each unit consists of one common share and one non-transferable half-share purchase warrant. Each warrant is exercisable to acquire one common share at a price of \$0.60 per share until May 30, 2006. The Corporation also issued a finders fee of 46,875 units with the same terms. Among the 335,938 warrants issued, 62,500 were exercised and the balance expired on May 30, 2006.

On December 21, 2005 the Corporation completed a private placement for gross proceeds of \$2,959,500 by the issuance of 5,919,000 units at \$0.50 per unit. Each unit consists of one common share and one transferable share purchase warrant. Each warrant is exercisable to acquire one common share at a price of \$0.75 per share until December 21, 2007. The warrants were listed for trading on the TSX Venture Exchange on April 24, 2006. The Corporation also issued 591,900 agent’s warrants to Canaccord Capital Corporation exercisable to purchase 591,900 common shares of the Corporation at a price of \$0.75 per share until December 21, 2007 and 250,000 units as a corporate finance fee having the same terms as the above units. All of these securities were subject to a four-month hold period which expired April 22, 2006.

Options

The Corporation grants incentive stock options as permitted pursuant to the Corporation’s Stock Option Plan (the “Plan”) approved by the shareholders. The Plan has been structured to comply with the rules of the Toronto Stock Venture Exchange (“TSX.V”). The aggregate number of common shares which may be subject to option at any one time may not exceed 10% of the issued common shares of the Corporation as of that date including options granted prior to the adoption of the Plan. Options granted may not exceed a term of 5 years, and the term will be reduced to one year following the date of death. If the Optionee ceases to be qualified to receive options from the Corporation those options shall immediately expire. All options vest when granted unless otherwise specified by the Board of Directors.

During the period the Corporation granted 50,000 options to employees and officers and recorded \$15,770 as stock-based compensation expense.

Mesa Uranium Corp. (formerly “Fintry Enterprises Inc.”)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In Canadian Dollars)

For the six months ended September 30, 2006 (Unaudited – Prepared by Management)

6. SHARE CAPITAL (continued)

	Number of Options	Exercise Price	Expiry Date
Granted: December 21, 2005	1,225,000	\$0.50	December 21, 2010
Granted: February 2, 2006	580,000	\$0.72	February 2, 2011
Balance, March 31, 2006	1,805,000	\$0.57	
Granted: April 11, 2006	50,000	\$0.76	April 11, 2011
Balance, September 30, 2006	1,855,000	\$0.58	

The Corporation uses the Black-Scholes option pricing model to value stock options which requires management to make estimates that are subjective and may not be representative of actual results. Changes in assumptions can materially affect estimates of fair values. For purposes of the calculation, the following assumptions were used in deriving the weighted average fair value of \$0.32 per option:

Risk free interest rate	4.47%
Expected dividend yield	0%
Expected stock price volatility	75%

Warrants

Warrants issued and exercised during the period are as follows:

	Number of Warrants	Exercise Price	Expiry Date
Private Placement of 625,000 units – June 2, 2005	312,500	\$0.60	May 30, 2006
